Please segment **something that produces pollen** in this image if it exists.

Sure, [SEG].

I can't find something that produce pollen, but something that takes picture is certainly present.

Please segment the place where piano players should sit in this image if it exists. Otherwise, tell me the object doesn't exist and optionally offer an alternative.

Sure, it is [SEG].

I can't confirm piano players should sit, but there's <u>car</u> <u>players should sit</u>.

Please segment the objects that can **protect the snail** and prevent it from getting injured in this image if it exists.

Sure, it is [SEG].

I can't find the objects that can protect the snail and prevent it from getting injured in this image.

When admiring a **beautiful sunset**, what part of the picture would we most likely focus on? Please output segmentation mask if it exists. Otherwise, describe the image in detailed.

Sure, [SEG].

I cannot find a beautiful sunset in the image. The image features a woman with curly hair looking out of a window.
